Nolly, Kathleen, and Sparky had prepared him for Industrial Woman, but when the flashlight beam flared off her fork-and-fan-blade face, Vanadium twitched in fright. Without fully realizing what he was doing, he crossed himself..In the city again, he stopped long enough to donate the raincoat to a homeless man who didn't notice the few odd stains. This pathetic hobo happily accepted the fine coat, donned it-and then cursed his benefactor, spat at him, and threatened him with a claw hammer..When the ophthalmologist saw her misery, his kind face softened further, and his pity became palpable.. "I'm not sad," Tom said, "because though I have this face here in this world, I know there's another me-in fact, lots of other Tom Vanadiums-who don't have this face at all. Somewhere I'm doing just fine, thank you."..Frowning, Panglo, said, "Terrible, you're right, so many terrible things happen, but I don't see why trains-".For Gammoner, exactly as for Pinchbeck, Google had provided: a driver's license that was actually registered with the California Department of Motor Vehicles, and that would, therefore, stand up to any cop's inspection; a legitimate social-security card; a birth certificate actually on file with the cited courthouse; and an authentic, valid passport..The gray pants of her jogging suit, speckled with rain that had blown in through the shattered windshield, were suddenly soaked. Her water had broken..By eleven months, his vocabulary had expanded to nineteen words, by Agnes's count: an age when even a precocious child usually spoke three or four at most..Barty approached stair climbing as a mathematical problem, calculating the precise movement of each leg and placement of each foot necessary to successfully negotiate the obstacle. He proceeded less slowly on the next three steps than he had on the first three, and thereafter he ascended with growing confidence, pumping his legs with machinelike precision..Ford dealership, which he'd closed for business until three o'clock: lamentations, lunch, and moving reminiscences of the deceased shared among the shiny new Thunderbirds, Galaxies, and Mustangs. That venue would provide Junior with the witnesses he required for his reluctant, tearful, and perhaps even angry concession to the Hackachaks' insistent materialism.. "He's blind, sure, but he's also a boy," Angel said, "and trees are something that boys gotta do."..Every distorted shape, every smear of color, every swath of light and shudder of shadows resisted her attempts to relate them to the world she knew, as if shimmering before her were the landscape of a dream.. "so she's married," Junior said, figuring that maybe Celestina wasn't his heart mate, after all.. "I'm going to tell you something about your father that might comfort you," he said, "but you can't ask me for more than I'm ready to say right now. It's all a part of what I'll discuss with you in Bright Beach."..While always Agnes held fast to hope, she knew that easy hope was usually false hope, and she didn't allow herself to speculate, even briefly, that his problem had resolved itself. Other symptoms-halos and rainbows-had disappeared for a time, only to return..Yet when he put her down in the upstairs hall, she cried out for her husband-- "Harry!" "-and tried to plunge once more into the narrow stairwell..Junior had hoped not to be recognized by anyone at this affair. He regretted that he hadn't stuck to his original plan, maintaining surveillance of the gallery from his parked car..Zedd endorses self-pity, but only if you learn to use it as a springboard to anger, because anger-like hatred--can be a healthy emotion when properly channeled. Anger can motivate you to heights of achievement you otherwise would never know, even just the simple furious determination to prove wrong the bastards who mocked you, to rub their faces in the fact of your success. Anger and hatred have driven all great political leaders, from Hider to Stalin to Mao, who wrote their names indelibly across the face of history, and who were-each, in his own way-eaten with self-pity when young.. "Yes," she assured him, though her gaze had dropped from his mouth to his hand, so small, which she held in hers..As though Amelia Earhart, the long-lost aviatrix, had reached out of her twilight zone and snared the two bits, no tumbling coin glinted in the air above the desk..Instinct, even reason, told him that some connection existed between this person, this Bartholomew, and Celestina. The name had terrified Cain in a bad dream, the very night of the day that he'd killed Naomi, and Vanadium therefore had incorporated it into his psychological-warfare strategy without knowing its significance to his suspect. As strongly as he sensed the connection, he couldn't find the link. He lacked some crucial bit of information.. "It was in your heart, too, and anything that's in your heart is there for anyone to see. Will your father marry us?"..when red aces weft followed by disturbing jacks, Agnes had pretended to take her son's card-told fortune lightly, especially the frightful part of it. In fact, a coldness had twisted through her heart..The pair of sliding doors at the living-room archway stood half open. Beyond, voices drew Paul against his will..If Junior had realized that they were driving only a block and a half, he wouldn't have followed them in the Mercedes. He would have gone the rest of the way on foot. When he pulled to the curb again, a few car lengths behind the Buick, he wondered if he had been spotted..During the course of this momentous day, he had employed Zedd learned techniques to channel his hot anger into a red-hot rage. Now, without any conscious effort on his part, rage grew into molten-white fury..For a long time, she sat alone in the dark living room, in the armchair that had been Joey's favorite, thinking about many things but returning often to the memory of Barty's dry walk in wet weather..In her arms, little Barty burbled contentedly, unaware that his destiny supposedly included epic love, fabulous riches, and violence..He already had the pistol he had taken from Frieda Bliss's collection, but it didn't come with a sound-suppressor. He was preparing for all contingencies. Focus..On the short return trip to the ophthahnologist, Agnes crazily considered driving past Chan's office building, cruising onward--ever onward-into the sparkling December night, not just back to Bright Beach, where the bad news would simply come by phone, but to places so far away that the diagnosis could never catch up to them, where the disease would remain unnamed and therefore would have no power over Barty..Upon arriving at the creche window, he had been in a buoyant mood. As he studied the quiet scene, however, he grew uneasy..The Finder..Her special son, walking where the rain wasn't, had made all things seem possible..Agnes Lampion would enthral them, for hers was a life of clear significance. That they seemed equally interested in Paul's story, however, surprised him. Perhaps they were merely being kind, and yet with apparent fascination, they drew out of him so many details of his long walks, of the places he had been and the reasons why, of his life with Perri..Paul in the guest room again. Sweeping a bedside lamp to the floor, lifting the nightstand..Dropped cartridges gleamed on the carpet. Stoop to snatch them up? No. That was asking for a skull-cracking blow..A mere silhouette against the fluorescent glare, Vanadium stepped it the hall. The bright light seemed to enfold him. The detective shimmered and vanished the way that a mirage of a man, on a fiercely hot desert highway, will appear to walk out of this dimension into another, slipping between the tremulous curtains of heat as though they hang between realities..This morning, Damascus had left the house early,

before Vanadium came downstairs, which was perfect for Junior's purposes. While the maniac cop was finishing his shave and shower, Junior crept upstairs to check his room. He discovered the revolver in the second of the three places that he expected it to be, did his work, and returned the weapon to the nightstand drawer in precisely the position that he had found it. Narrowly avoiding an encounter with Vanadium in the hall, he retreated to the ground floor. After some fussing over the most effective placement, he left the quarter and the luggage—just as Vanadium, the human stump, clumped down the stairs. Junior experienced an unexpected delay when the detective spent half an hour making phone calls from the study, but then Vanadium went into the kitchen, allowing him to slip out of the house and complete his work. "All under here's worked out long since" Licky said. And Otter had begun to be aware of the strange country under his feet: empty shafts and rooms of dark air in the dark earth, a vertical labyrinth, the deepest pits filled with unmoving water. "Never was much silver, and the watermetal's long gone. Listen, young'un, do you even know what cinnabar is?" The ninth card was a jack of spades. Maria called it a knave of and at the sight of it, her bright smile dimmed. Earthquake weather. Southern Californians had many definitions of that term, but Edom knew he was right this time. Thunder would roll again soon, but it would arise from underfoot. The 9-mm pistol and the ammunition were on the foyer table. With trembling hands, Junior tore open the boxes and loaded the gun. Because this kind of fictional fact, like maps of imaginary realms, is of real interest to some readers, I include the description after the stories. I also redrew the geographical maps for this book, and while doing so, happily discovered a very old one in the Archives in Havnor. "July 14, 1960, in Guatemala City, Guatemala, a fire in a mental hospital—two hundred twenty-five dead." Wet cobblestones and tattered blacktop. Hurry, hurry. Past the lighted casement window in the gallery men's room. Knacker or Hisscus, or Nork, was talking about an offering, as though Naomi were a goddess to whom they wished to present a penance of gold and jewels. Pecan cakes, cinnamon custard pies boxed in insulated coolers, gifts wrapped with bright paper and glittery ribbons. Agnes Lampion made deliveries to those friends who were on her list of the needful, but also to friends who were blessed with plenty. The sight of each beloved face, each embrace, each kiss, each smile, each cheerfully spoken "Merry Christmas" at every stop fortified her heart for the sad task awaiting her when all gifts were given. Otter stated it as an unfortunate fact, not as a moral assertion. Hound looked at him with appreciation. Living with the pirate king, he was sick of boasts and threats, of boasters and threateners. Perri had been crippled seventeen years before Jonas Salk's vaccine had spared future generations from the curse of polio. Having gotten the new roof for them at cost, Agnes subsequently put together donations from a dozen individuals and one church group to cover all but two hundred dollars of the outlay. Hackachaks to browbeat him into a despairing, exhausted, disgusted compliance with their greed. "Really, Angel," Barty said with genuine concern, "it might be scary. I got another one we could listen to, if you want." "As long as the case was open and you were the sole suspect," said the lawyer, "they couldn't negotiate an out-of-court settlement with you. But they were afraid that if eventually they couldn't prove you killed her, then they'd be in an even worse position when a wrongful death suit finally went before a jury." "Maybe he could if he was able to lift it, but I couldn't throw a pig or an Oreo or anything else into any other place. It's just not something I know how to do." "You'll need time to ... adjust to this," he said. "Perhaps you've got to call family. . . ." "No, no, dear. It was little Muffin, from next door. A big dog certainly would have torn up both you and the pants. We've got to have a credible story." Drawn one after the other, two knaves of spades didn't signify two deadly enemies, but meant that the enemy already predicted by the first would be unusually powerful, exceptionally dangerous. No one seemed to realize that predicting the future might not be a suitable entertainment in this house, at this time, considering that Agnes had so recently and horribly been blindsided by fate. Agnes was so weary, her eyes so sore and grainy, that even this soft radiance stung. She almost closed her eyes and gave herself to sleep again, that little brother of Death, which was now her only solace. What she saw in the lamplight, however, compelled her attention. The high point of his day was coming home to Perri. They met when they were thirteen, married at twenty-two. In May they would celebrate their twenty-third anniversary. Behind the dog, Mary walked out of nowhere, ball in hand, and Koko whirled in surprise, and the chase was on again. Grace White was petite, and Paul wasn't. Otherwise he might not have been able to halt her determined rush toward her husband, might not have been able to scoop her off her feet and, carrying her in his arms, spirit her to safety. He turned the knob. The door eased inward, but he pushed it open only a fraction of an inch. Beyond the window, behind veils of rain and fog, the metropolis appeared to be more enigmatic than Stonehenge, as unknowable as any city in our dreams. "Now, I'm doubtless," Vanadium said, his voice returning to the uninflected drone that Junior had come to loathe but that he now preferred to the unsettling voice of quiet passion. "No matter what the situation, no matter how knotty the question, I always know what to do. Seven or eight years after Tehanu was published, I was asked to write a story set in Earthsea. A mere glimpse at the place told me that things had been happening there while I wasn't looking. It was high time to go back and find out what was going on now. In July, she went for a walk on the shore with Paul Damascus, expecting to do a little beachcombing, to watch the comical scurrying crabs. Somewhere between the seashells and the crustaceans, however, he asked her if she could ever love him. Celestina extended her left hand, which shook so badly that she nearly knocked over both their wineglasses. "I will." "So do I," said the visitor, and Junior almost frowned at this peculiar response, wondering what was meant in addition to what was merely said. Suddenly so many of Zedd's greatest maxims seemed to conflict with one another, when previously they had together formed a reliable philosophy and guide to success. The guy appeared vulnerable, his arms occupied with the kid and the bag, and Junior considered bursting out of the Mercedes, striding straight to the Celestina-humping son of a bitch, and shooting him point-blank in the face. Brain-shot, he would drop quicker than if the headless horseman had gotten him with an ax, and the kid would go down with him, and Junior would shoot the bastard boy next, shoot him in the head three times, four times just to be sure. "I thought so," Angel said, dubiosity squinching her face. "Mrs. Ornwall made me cheese." Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window. Griskin, a former convict, had served eleven years for second-degree murder before the lobbying efforts of a coalition of artists and writers had won his parole. He possessed a huge talent. No one before Griskin had ever managed to express this degree of violence and rage in the medium of bronze, and Junior had long kept the artist's work on his short list of desired acquisitions. As beautiful as they were, none of these women satisfied him as profoundly as Naomi had satisfied him. Junior couldn't see the lights of the nearest other houses. Either those structures were screened by trees or the neighbors weren't home. Before he could replay the memory for further contemplation, Junior saw Ichabod exiting the house. The man returned to the Buick, seeming to float through the mist, like a phantom on a moor. He started the engine, quickly hung a U-turn in the street, and drove uphill to the house from which he had earlier collected Bartholomew. He was immensely weary, limp. He felt oppressed, as though a great weight were piled on

him. Even keeping his eyes open was tiring.. "I guess so, but it's not that. I was thinking of something my little girl said." Through fog-shrouded hills forested with oaks, maples, madrones, and pepperwoods, through magnificent stands of redwoods that towered three hundred feet, he arrived in Weott on the evening of January 3, 1968, where he stayed the night. If Paul had any northernmost goal for this trip, it was the city of Eureka, almost fifty miles farther-and for no reason, other than to eat Humboldt Bay crabs at their origin, because that was one of his and Perri's favorite foods.. This was different earthquake weather from that of ten days ago, when he'd made the pie deliveries alone. Then: blue sky, unseasonable warmth, low humidity. Now: low gray clouds, cool air, high humidity.. "This meeting of the North Pole Society of Not Evil Adventurers is officially closed." Barty sat at the kitchen table, reading *Between Planets*. From time to time, Agnes discovered him watching her at work or studying Maria's face and her dexterous hands.. His enjoyment of the art was diminished by these associations, and as Junior turned away from *Industrial Woman*, his attention was suddenly captured by the quarters. Three lay on the floor at her gear wheel-and-meat-cleaver feet. They had not been here earlier.. Month by month during Barty's first year, Agnes's belief in his exceptional intelligence was only confirmed by his development. By the end of the second month of life, most babies will smile in response to a smile, and they are able to smile spontaneously in the fourth month. Barty was smiling frequently in his second week. In the third month, many babies laugh out loud, but Barty's first laugh came in his sixth week.. Admittedly, she had allowed herself to be disturbed by the fall of the cards, too. According them any credibility at all opened the door to full belief.. From Sparky, Tom Vanadium had borrowed a master key with which he could open the door to Cain's apartment, but he preferred not to employ it as long as he could enter by a back route. The less often he used the halls that were frequented by residents, the more likely he would be able to keep his flesh-and-blood presence a secret from Cain and sustain his ghostly reputation. If too many tenants got a look at his memorable face, he would become a topic of discussion among neighbors, and the wife killer might tumble to the truth.. Initially, Helen Greenbaum, at Greenbaum Gallery, had taken on three canvases, and had sold them within a month. She took four more, then another three when two of the four moved quickly. By the time that she'd placed ten pieces with collectors, Helen decided to include Celestina in a show of six new artists. And now, already, she had a show of her own.. The street in front of the gallery was as flooded by a sea of fog as the alleyway at the back. The headlights of passing traffic probed the gloom like beams from deep-salvage submersibles at work on the ocean floor.
