Men and women and children had died because he was there. They had died in torment, burned alive. He had put his sister and mother in fearful danger, and himself, and through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used him as

he was said to use people, emptying their minds like little sacks, then everyone on Roke would be exposed to the wizards power and to the might of the fleets and armies under his command. Medra would have betrayed Roke to Havnor, as the wizard they never named had betrayed it to Wathort. Maybe that man, too, had thought he could do no harm..have to remember how to live. How to make light. I have to remember. I have to remember the one in a hundred, it is a latent, cultivable talent. In a very few people it is manifest without. It was utterly still. We have inhabited both the actual and the imaginary realms for a long time. But we don't live in. "Ah, pick your nose, harp-picker," Labby said, and Tarry took offense, and people took sides, and teacher had spoken of once only and long ago. Strange matters, so strange he had never known if there was nothing much to say about herself. Must they do so for a thousand years with no hope? "ONE WINTER AFTERNOON on the shore of the Onneva River where it fingers out into the north bight of the Great Bay of Havnor, a man stood up on the muddy sand: a man poorly dressed and poorly shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His clothes were soaked. He hunched his shoulders, turned about, and set off towards a wisp of chimney smoke he saw far down the shore. Behind him were the tracks of an otter's four feet coming up from the water and the tracks of a man's two feet going away from it..were people of the Hand in the Great Port. For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a mere toy, such as music or tale-telling, but a practical business, which his business could never quite equal. And he was, though he wouldn't have put it that way, afraid of wizards. A bit contemptuous of sorcerers, with their sleights and illusions and gibble-gabble, but afraid of wizards.. chests and clothes-presses against an infestation of moths, he said, "Seems like you'd have your. A millennium and a half ago or more, the runes of Hardic were developed so as to permit narrative writing. From that time on, The Creation of Ea, The Winter Carol, the Deeds, the Lays, and the Songs, all of which began as sung or spoken texts, were written down and preserved as texts. They continue to exist in both forms. The many written copies of the ancient texts serve to keep them from varying widely or from being lost altogether; but the songs and histories that are part of every child's education are taught and learned aloud, passed on down the years from living voice to living voice..there was no room for two sorcerers in one village and he'd be back, maybe, when that man, or. In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. Taken back to Omer, one of the boys broke down and blubbered about joining the Hand.
