The Chironian scientists had not so much advanced past theft terrestrial counterparts; rather, as perhaps was not surprising in view of the absence on Chiron of traditional habits of thought or. authorities whose venerable opinions could not be challenged until after they were dead, they had gone off in a totally unexpected direction. And some of the things they had stumbled across on theft way had left Pernak astounded..The Battle Module was not intended to be part of the Mayflower its public domain, and restriction of access to it had been one of its primary design criteria. Personnel and supplies entered the module via four enormous tubular extensions, known as feeder ramps, that telescoped from the main body of the ship to terminate in cupolas mating with external ports in the Battle Module, two forward and two aft its midships section. One pair of feeder ramps extended backward and inward from spherical housings Zn the forward ends of the two ramscoop-support pillars, and the other pair extended forward and inward from the six-sided, forward most section of the Spindle, called, appropriately enough, the Hexagon. As if having to get through the feeder ramps wasn't problem enough, the transit tubes, freight handling conveyors, ammunition rails, and other lines running through to them from the Spindle all came together at a single, heavily protected lock to pass through an armored bulkhead inside the Hexagon. Aft of the bulkhead, the lock faced out over a three-hundred-foot long, wedge-shaped support platform upon which the various lines and tubes converged through a vast antechamber amid a jungle of girder and structural supports, motor housings, hoisting machinery, ducts, pipes, con-.recognizes him for the monster that he is. An elevator took him up two levels to another corridor, and minutes later he was being shown into an office that opened onto one side of the Engineering Command Deck. Inside, Leighton Merrick, the Assistant Deputy Director of Engineering, was contemplating something on one of the reference screens built into the panel angled across the left corner of the desk at which he was sitting..rants of anger, self-loathing, self-pity. If these words filtered through the prison of the damped brain in."And in any case, whatever would a bunch like that want to get together for?" Nanook asked."I'm not sure," Kalens replied distantly. Trying to elucidate Sterm's motives is akin to peeling an onion. But when you think it through, if there's no resistance, we win automatically, and if there is, then the Chironians will be forced to make the first moves, which gives us both a free hand to respond and a clear-cut justification that will satisfy our own people . . . which' is doubly important with the elections coming up. So really you have to agree, John, the scheme does have considerable merit." "I might just do that," Fallows said, nodding slowly. "Yeah I could use being out and about for a few hours. Thanks for the tip."."Catalysts," Colman said after a few seconds of reflection. "You know, you're fight, now that I think about it. All they do is make you exercise the brains you never ' knew you had."Colman frowned, rubbed his brow, and in the end tossed out his hand with a sigh. "No . . . we're not making the right point somehow. Let's put it this way--how can you measure who owes who what?" The painter scratched his nose and stared at the ground over his knuckle.
